PaCE@NTU collaborates with Digital Forensics Services Asia to bring you the Certified Computer Examiner (CCE)® BootCamp, an intensive 5-day classroom and laboratory training course in computer forensic examinations.

This course will teach you how to conduct forensically sound computer examinations through hands-on and comprehensive practical exercises to prepare you for the CCE certification testing.

Who Should Attend

- Government, military and law enforcement officers.
- Forensic examination business start-up (entrepreneur).
- Professionals such as network administrators, MIS and IS specialists, auditors, fraud examiners, private investigators.
- Specialists who may encounter computer media that contains potential evidence or other significant data.

Learning Journey

You will be going through 5 days of theory lessons, practical exercises and coursework projects that will be concluded with conceptual tests and written reports.
Full Programme Fee: S$10,700.00 (inclusive of 7% GST)
Course fee payable after SkillsFuture Funding (SSG), if eligible under various schemes (inclusive of 7% GST)
